

How do we ensure staff have the expertise in supporting and working with children with SEND?

- ❖ Support from external agencies to enhance the skills of existing staff.
- ❖ Bespoke training to meet the needs of our children.
- ❖ Continuous in-house training e.g. up-skilling new and experienced staff through visits to other schools, staff meetings and designated inset days.
- ❖ Support from other experienced SENCO's to improve practices in school.
- ❖ Through Performance Management of both Teachers and Teaching Assistants we identify CPD requirements of all staff on a regular basis.
